

Puzzle Challenge

Why Jigsaws for Kids?

- Jigsaws are wonderful for developing logical and spatial ability
- Jigsaws encourage sorting, matching and problem solving skills in children
- Jigsaw content can be educational
- And of course, jigsaws are just good fun!

Can you make all the puzzles you have at home?

Could you make a puzzle? Choose a picture - greetings cards work well - cut into a few pieces and then try to put them back together again.

Do some puzzles online
